

Dedicated to People Flow™

SOPHISTICATED ELEVATOR ENVIRONMENTS

KONE Design Collection

KONE Design Collection –

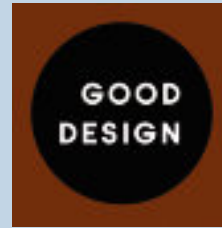

when every detail counts

A new user experience

For KONE, the goal is to create the best possible user experience. A smooth ride and reliable performance ensure the ideal people flow, while the car interior design creates an aesthetically pleasing experience for each passenger.

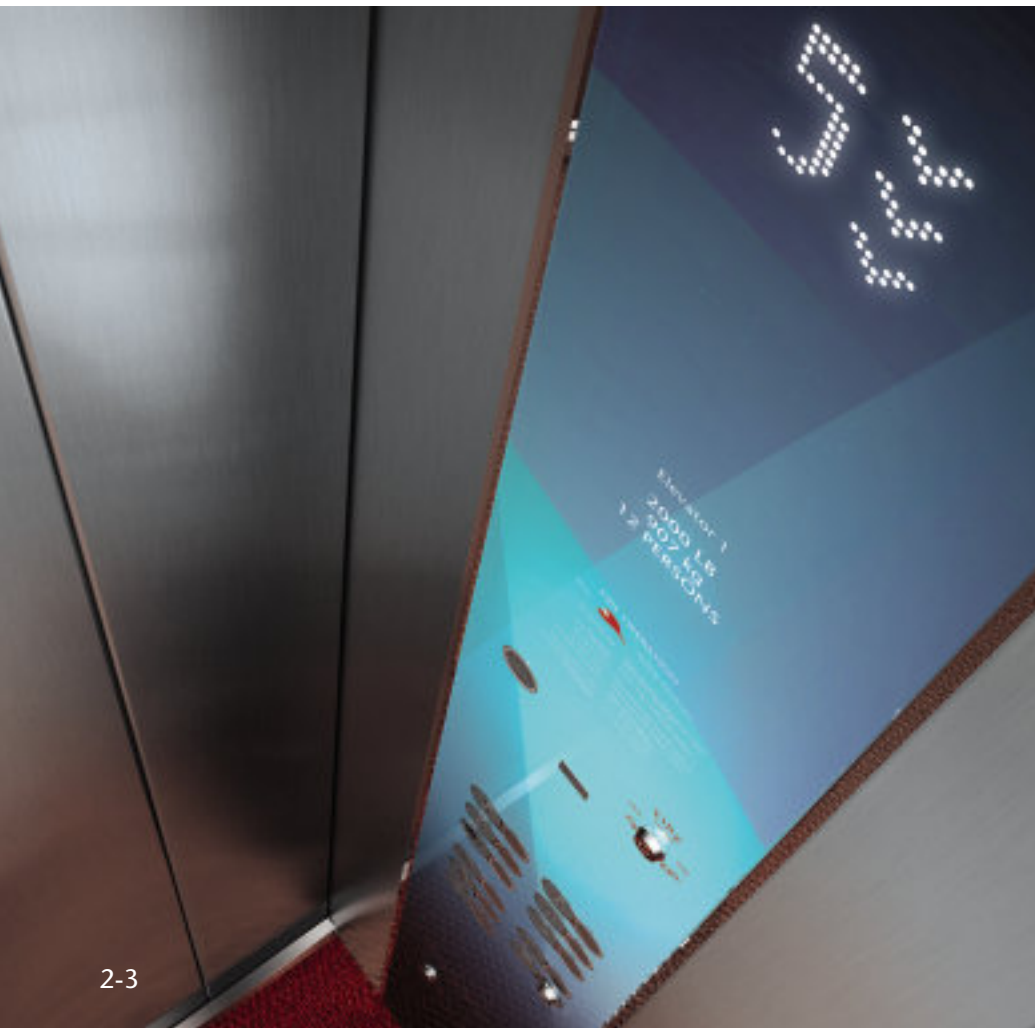

There is more to this than mixing and matching the materials and components. The quality of materials, manufacturing process and assembly have to be first class to ensure that everything including the energy-efficient lighting, innovative car operating panels and material combinations always supplement any type of architecture.

KONE has enhanced the lighting level, met the accessibility codes and fulfilled the environmental requirements. With these standards as our base complemented by finishes available within this Design Book, KONE has created complete harmony where all parts work together. The end result generates a positive user experience: aesthetically, functionally and emotionally.

The KONE Design Collection received the GOOD DESIGN award for its innovative elevator design concept by The Chicago Athenaeum: Museum of Architecture and Design. KONE is the first elevator and escalator company to ever receive this prestigious award.

KONE's FourSeasons™ concept is part of the innovative KONE Design Collection which combines different colors and shades reflecting the seasons, making it easier and faster for a customer to select a sophisticated and stylish design. Over 70 specially designed alternatives offer hundreds of different possibilities to match any interior and architecture.

Mix & Match

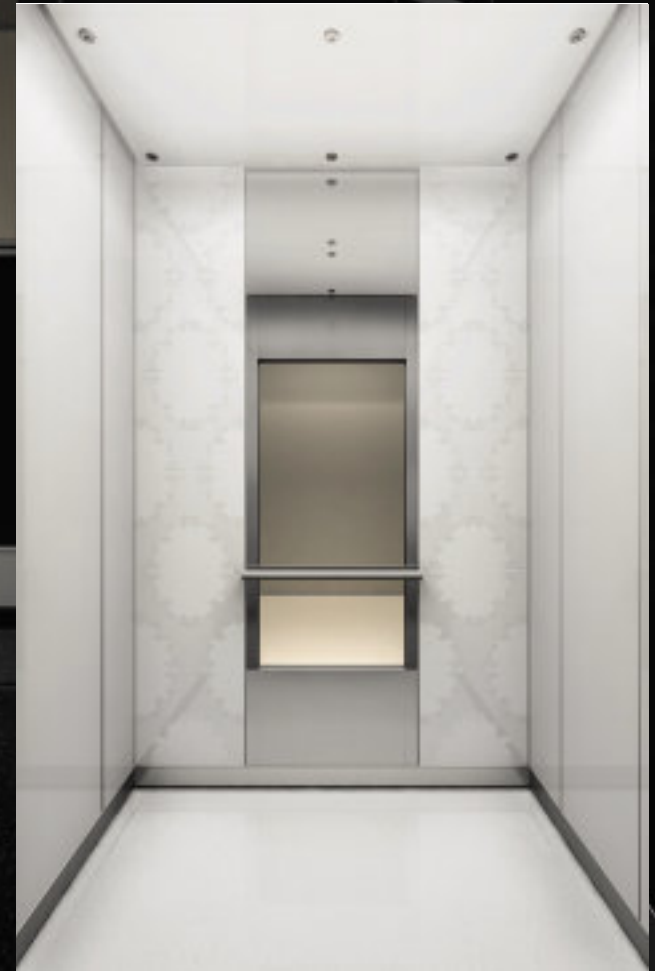

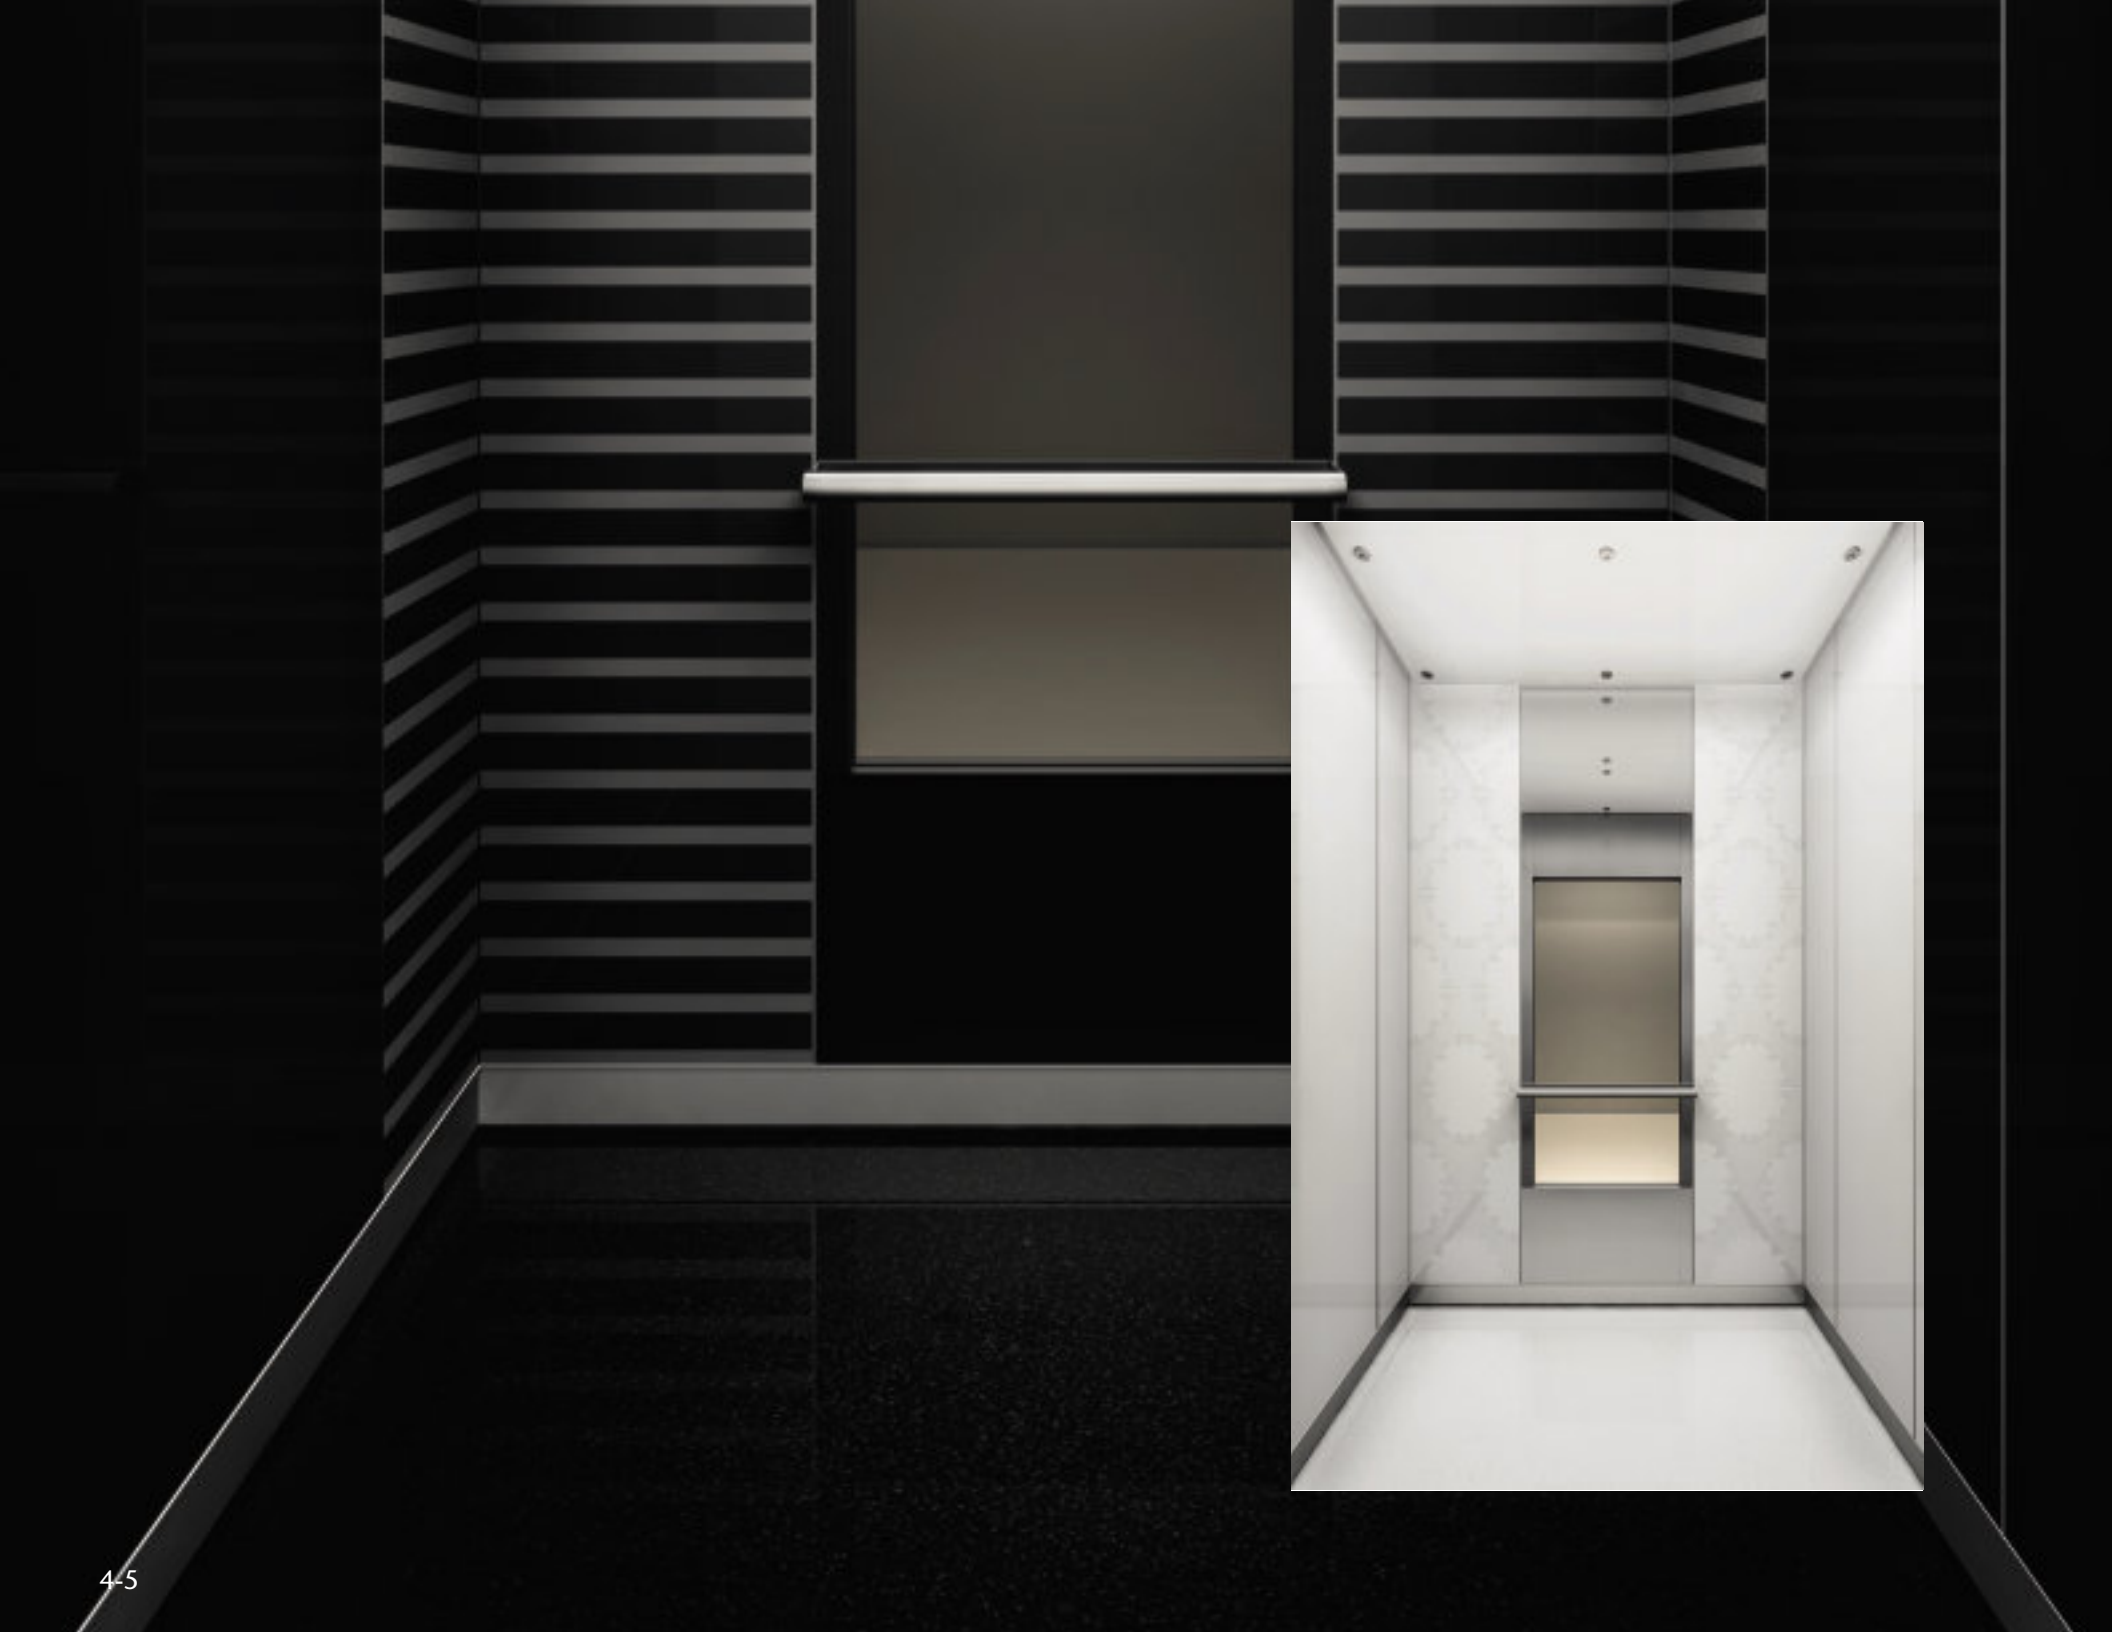

If you can't find exactly what you're looking for from our KONE Design Collection interiors, you can replace elements with alternatives from the range. Select ceilings, walls, doors, handrails and flooring. There are thousands of possible combinations.

The possibilities are virtually limitless

Executive Custom Car Offering

KONE Executive, available for MonoSpace® and EcoSystem MR™, rises to the top floor in sophistication and performance. White marble in the lobby floor? Walnut paneling in the executive suite? Design a unique custom elevator interior to match the décor of your building. Choose the material and we'll build an elevator.

Wood Laminate Winter

Color & Wood Laminate Series

Tradition celebrated

With an emphasis on the back wall, these interiors create the effect of depth and space. The Color Laminate Series interiors fit in fresh modern spaces characterized by details in colors and textures. The Wood Laminate Series follows the same concept but in a more traditional style creating a warm atmosphere.

Vintage Series

Longing for the past

Inspired by materials and colors from the era of Art Deco and the International Style, the Vintage Series offers minimal but rich solutions. With special metallic laminates, this series creates both warm and cool ambiances to match buildings with a touch of nostalgia.

The Vintage Series is available for EcoSpace™, MonoSpace and EcoSystem MR. Images shown are applicable for EcoSpace only.

Glass Series

Fresh minimalism

The contemporary ambiance of this interior is a perfect match to architectural color as a key component. The bright, solid colors create a dialogue between the overall architecture and the elementary spaces. Or going the other way, the bright interior can act as a source of surprise amidst overall coolness.

The Glass Series is available for EcoSpace, MonoSpace and EcoSystem MR. Images shown are applicable for MonoSpace and EcoSystem MR only.

Landscape Series

Natural luxury

Original recipient of the GOOD DESIGN award, this interior concept was first developed for the European market, particularly for deluxe high-rise buildings. Following its success, we created a collection especially for the North American market, with wood tones that respond to the natural landscapes.

The Landscape Series is available for MonoSpace and EcoSystem MR only.

The KONE FourSeasons Design Collection received the GOOD DESIGN 2008 award, as awarded by The Chicago Athenaeum: Museum of Architecture and Design.

Founded in 1950, GOOD DESIGN is the world's oldest and most celebrated awards program that bestows international recognition upon designers and manufacturers for advancing new and innovative product concepts. GOOD DESIGN criteria measures innovation, form, materials, construction, concept, function and utility.

Panoramic & Horizon Series

Widen the horizon

The Panoramic & Horizon Series were specially developed for the North American market. This Series is a homage to Frank Lloyd Wright, whose architecture was also the source of inspiration. His emphasis on the horizontal design is further developed into an idea to open up the space horizontally.

- **Panoramic Series:** By using wood laminates and opening the top of the space with mirror, these sophisticated interiors fit very well with modernist environments.
- **Horizon Series:** By using pearlescence or metallic laminates, these elevators will bring a sense of surprise and a unique experience to the users of contemporary buildings.

The Panoramic & Horizon Series are available for MonoSpace and EcoSystem MR only.

Mix & Match

If you can't find exactly what you're looking for from our KONE Design Collection interiors, you can replace elements with alternatives from the range. Select ceilings, walls, doors, handrails and flooring. There are thousands of possible combinations.

By utilizing the special aspects of the KONE Design Signalization Collection, implementing corporate logos, tenant directories, extended floor names and customer-provided backgrounds can be seamlessly integrated into the visual outlook of your car operating panel.

With these materials, KONE has created a harmonious whole where all parts work together. As a result, a harmonious elevator design is created: a positive user experience aesthetically, functionally and emotionally.

Visit www.kone.com for the latest job-specific Cab Designer Tool, CAD drawings and specifications.

LANDING DOORS

KONE offers three styles of doors – single-slide, center-opening and two-speed side opening. These can be matched with different frames and finishes to accommodate a variety of building types and traffic patterns. Contact your local KONE Sales Professional who can assist you in determining the ideal arrangement for your particular needs.

Single-Slide Door

Finish
 Painted finish
 Satin stainless steel
 Mirror stainless steel
 Satin bronze
 Mirror bronze*

Note
 Single-slide doors make the most efficient use of cab space.

Doors are available in 7', 8' or 9' heights.

Center-Opening Door

Finish
 Painted finish
 Satin stainless steel
 Mirror stainless steel
 Satin bronze
 Mirror bronze*

Note
 This higher-performance door is suitable for high-traffic applications.

Doors are available in 7', 8' or 9' heights.

Two-Speed Side Opening Door

Finish
 Painted finish
 Satin stainless steel
 Mirror stainless steel
 Satin bronze
 Mirror bronze*

Note
 Two-speed doors are best suited for deep and narrow cab configurations.

These doors are appropriate for use in hospitals or other locations where tenants may need to move carts, furniture or other large objects.

Doors are available in 7', 8' or 9' heights.

*Available for MonoSpace and EcoSystem MR only.
