NEW EQUIPMENT, MODERNISATION AND MAINTENANCE SOLUTIONS

KONE Platform Lifts

KONE Platform Lifts

KONE's comprehensive range of passenger elevators has been carefully designed to address the needs of passengers with either full or impaired mobility. Our specialist range of powered platform lifts are ideal for situations where disability access is required but the need for a larger capacity elevator is either not possible or not financially viable.

Cost effective solutions

KONE's range of platform lifts provides customers with an ideal cost effective solution for making an existing building with no elevator quickly disability-friendly and compliant with all existing Disability Discrimination legislation.

In most cases requiring virtually no pit and only structure fixes to the floor, the KONE platform lift structure is self-supporting and only requires a minimal amount of building work for installation. So minimal that installation can take as little as 2-3 days for a 2 floor lift.

The range includes options for single and multi-floor landings, partially or fully enclosed cars.

Perfect for all environments

Style and reliability come as standard with KONE platform lifts. The range of floor, wall, ceiling finishes and cladding including glass, provides customers with an opportunity to customise the lift to match a building's environment.

KONE's light capacity platform lifts provide the perfect choice for domestic, residential care homes and smaller commercial environments.

KONE can also supply external platform lifts, for full details please ask your KONE specialist.

Safety first

KONE platform lifts are incredibly safe; the chain is confined to a track along its whole length, any failures and the car auto parks on the standing chain providing an easy exit for its passengers.

Key facts

Car floor dimensions

Maximum 1480mm x 1120mm

Speed

0.15m/sec

Drive

Chain

Power requirements

1 Phase, 240 volts 10 amp 0.55kw

Travel

Up to 13m

Capacity

400kg/5 person

Recess (Pit) when required

Maximum 60mm or supplied mounted flush to floor with ramp

Headroom

2230mm

Steel structure

Self supporting no lift shaft required

Floors

2 to 5

Options

Compliance/Standards

Fully compliant with the Machinery Directive 98/37/EC, ISO 9386-1: 2000

EN81-41 'Platform lifts for people with impaired mobility'

Quality, maintenance, repairs & service

When you choose a KONE product solution you are assured that quality, durability and safety are inbuilt in its production, irrespective of manufacturing source.

Invariably our platform lifts are installed because of special access needs which cover both safety and reliability. As a result the equipment will require skilled routine maintenance and occasional repairs, to support this need KONE has a range of tailored maintenance solutions for your business.

KONE provides innovative and eco-efficient solutions for elevators, escalators, doors, loading bays and access. We support our customers every step of the way; from design, manufacturing and installation to maintenance and modernisation. KONE is a global leader in helping our customers manage the smooth flow of people and goods throughout their buildings.

Our commitment to customers is present in all KONE solutions. This makes us a reliable partner throughout the life-cycle of the building. We challenge the conventional wisdom of the industry. We are fast, flexible, and we have a well-deserved reputation as a technology leader, with such innovations as KONE UniDrive™, KONE MonoSpace®, KONE MaxiSpace™, and KONE InnoTrack™. You can experience these innovations in architectural landmarks such as 30 St Mary Axe and Broadgate and 201 Bishopsgate buildings, BAA Terminal 5, Emirates Stadium, Brunel University, Citigroup, Jubilee Line and St Georges Wharf.

KONE employs approximately 35,000 dedicated experts to serve you globally and locally in 50 countries.
