STYLISH, VANDAL RESISTANT ELEVATOR SIGNALIZATION

KONE KSS 140

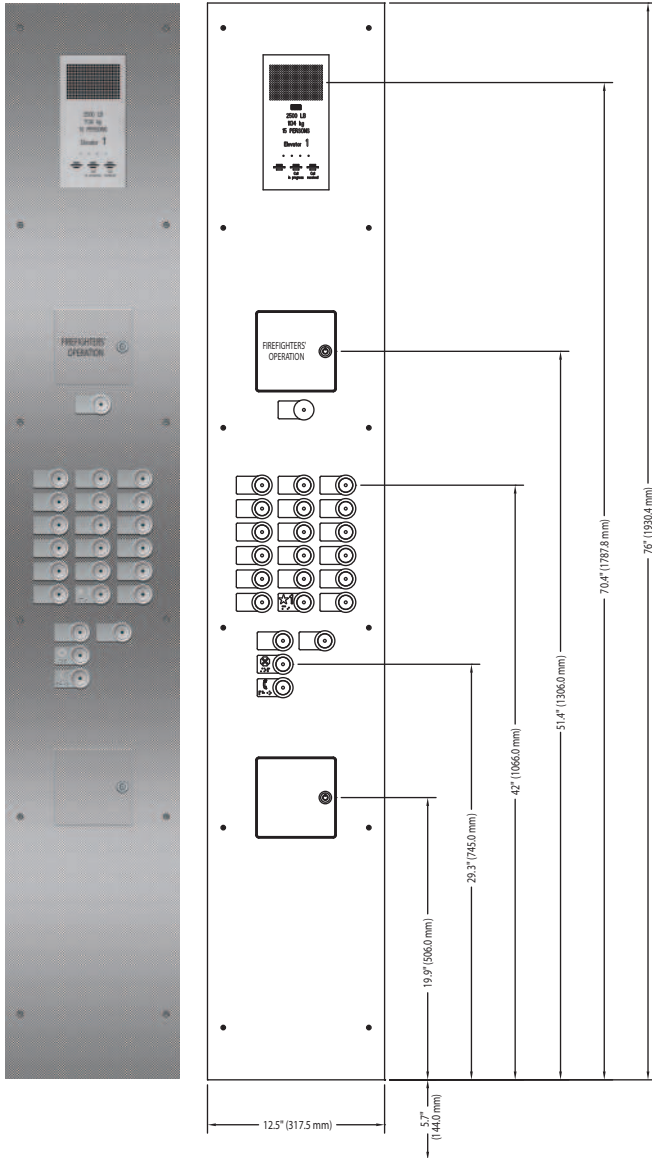

Key benefits

Signalization

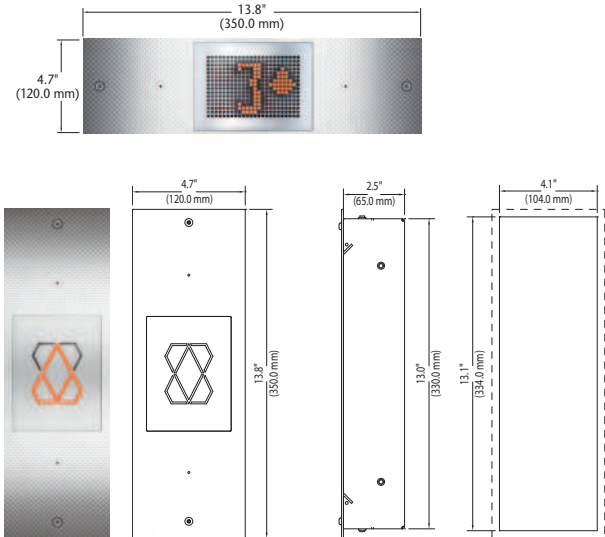

- An impact, scratch, burn and splash resistant signalization that is easy to clean
- The textured face plate conceals scratches and keeps the devices in good condition longer
- The durable yet attractive design features make it ideal for both new and existing public transport, airport, public building, freight, residential, office and retail elevators
- Available in variable dimensions to fit existing face plate spaces
- Low- to mid-rise applications up to 18 landings
- The display units are shielded by an impact resistant metal mesh and transparent, fire resistant plastic cover
- The lantern arrow cutouts are filled with fire resistant transparent plastic
